

Estimating Essentials Workshop

About the Course

Come join us for a 2 day Estimating workshop that will dive deep into the process of estimating including cost categories, quantity takeoff, bid analysis and proposal development. This hands-on class will allow each student to practice exercises specific to their industry. Great for those who are interested in estimating or wanting to understand where the numbers originate.

Topics Covered:

- Explain the cycle of construction estimating to understand data.
- Outline the categories of information in an estimate (direct, indirect, subs, etc).
- Practice estimating (create exercises related to attendee background).
- Discuss technology used for estimating (AI, software, data)
- Review proposal development and bid submission (bid leveling, analysis, etc.).
