iSqFt Takeoff Lite

iSqFt Takeoff Lite is the next-generation digital takeoff software featuring easy navigation and a clean user interface. Getting fast, accurate takeoffs is simpler than ever.

Measure with Speed, Estimate with Accuracy

Thanks to seamless integration with iSqFt products, doing takeoffs on the most up-to-date plans and specs is just a click away. Plus, iSqFt Takeoff is compatible with multiple file formats, including TIF, PDF, and AutoCAD. With this cutting-edge application, you can:

- Measure areas, lengths, and counts
- Calculate values across drawings
- Have unlimited number of drawings and layers
- Send individual values to MS Excel®
- Copy and paste takeoffs to other programs

Area, linear, and count takeoff

	Description	Quantity	Unit	Unit Cost	Total Cost
2	Medium Duty Asphalt Pavement	5,888.03	sf	\$20.50	\$120,910.87
3	4" Concrete Sidewalk - Labor	9,201.00	sf	\$1.85	\$17,021.85
4	4" Concrete Sidewalk - Material	113.59	cy	\$132.55	\$15,056.70
5	Extruded Concrete Curb	2,049.41	lf	\$7.50	\$15,370.58
6	Precast parking bumpers		ea	\$70.00	\$0.00
7	Seeding		sf	\$0.50	\$0.00
8	Sod		sf	\$6.00	\$0.00
9		Subtotal			\$168,359.99
10		OH	5%	\$8,418.00	
11		Fee	8%	\$14,142.24	
12		Total			\$190,920.23

Send quantities and totals to a spreadsheet in MS Excel®

Save Time and Money

Still driving to plan rooms and working with paper plans? iSqFt Takeoff Lite offers a better way. The intuitive layout and new features save you time, and working on-screen streamlines the entire process, from takeoff to submission.

- Eliminate the need for costly paper plans
- Save takeoff images and send them via email
- Do more takeoffs in less time, letting you bid more jobs

Change the way you manage your estimating process. iSqFt Takeoff Lite delivers an immediate impact to your bottom line.
