

**Chris R. Sheridan & Co** is seeking an outstanding individual to become a part of its *Pre-construction and Estimating team.*

The successful candidate will participate in all aspects of the bid/estimating process, (especially conceptual estimating) to include:

The Plan and Spec review;

Soliciting and negotiating prices from vendors;

Quantity takeoff of Divisions 2 through 10 and familiarity with Divisions 11 - 16

Pricing and scoping of bid packages;

Assisting in producing final estimate and recommendations for presentation to the owner;

Preparing a comparison budget between current and previous budgets.

ALSO:

Building relationships with all levels of construction professionals to align with the aims of Chris R. Sheridan & Co.;

Attending industry events and representing Chris R. Sheridan & Co. to the industry in a professional capacity;

Keeping current on the latest estimating technology and techniques;

### **Job Requirements:**

A solid number of years of estimating experience giving the ability to work on projects \$10 million or greater.

A Bachelor's degree in Engineering or Building Construction

Knowledge of Microsoft Office,

A willingness to learn Timberline Precision Estimating, and iSQFT.

Solid interpersonal and communications skills.

A strong work ethic
