**TO: All Construction Industry Members
(Including Florida Licensed Contractors)**

**FROM: Thomas J. Kelleher, Jr.
Smith, Currie & Hancock LLP**

DATE: July 2, 2007

**RE: Courses Meeting Florida's Continuing Education Requirements
Marietta, GA, August 2-3, 2007**

For nearly 10 years, Smith, Currie & Hancock has been honored by the Florida Construction Industry Licensing Board to sponsor programs that provide opportunities for contractors holding Florida licenses to meet their continuing education requirements. These programs reflect our firm's collective experience (over 500 attorney years) in representing contractors, subcontractors, owners, and other construction participants.

This year we are proud to announce that we have been joined in this educational effort by the **Georgia Branch of the Associated General Contractors of America** for two programs. Our joint programs will be presented in Marietta, Georgia, at the offices of the Georgia Branch of the AGC. Given the variety of the FCILB's required courses, we are offering two distinct programs to provide you the flexibility to take individual programs or both programs to meet your need for CE credits and your schedule.

These programs cover a number of topics of interest to the Florida construction community. The courses will focus on those issues and pitfalls of practical concern that can lead to unintended problems and disputes, and will address practical documentation practices that can help avoid and resolve disputes and claims. For those holding a Florida contractor's license, these programs have been approved for 13 of the needed 14 hours credit, including the required one-hour segments in **Workplace Safety, Worker's Compensation, and Business Practices**. The registration form may be mailed or faxed to us with your payment. If you are paying via credit card, please use Visa or Mastercard.

Course Nos. 0008568 and 0008569

Provider No. 0000998

ATLANTA ■ CHARLOTTE ■ FT. LAUDERDALE ■ LAS VEGAS ■ TALLAHASSEE

SERVING THE CONSTRUCTION INDUSTRY FOR OVER 40 YEARS

There is an additional one hour Advance FBC Code Course requirement reflecting the revisions to the Florida Building Code adopted in the Fall of 2006. To provide attendees who register for either of our two programs the ability to fulfill this requirement on a schedule, which meets your convenience, we have coordinated with another FCILB Approved Internet course provider, Redvector (FCILB Provider 0001771), to offer you this one hour program at the reduced price of \$20.00 per course hour. Redvector offers two separate one hour courses:

FL Building Code Advanced '04 Building Structural Summary
Course number: RV-7366
One Hour

FL Building Code Advanced '04 Residential – Floors, Walls & Roofs
Course number: RV-7568
One Hour

To register at this fee with Redvector, identify Coupon Code “smithcurrie” when you register. Kelly Conlon (813/217-9020) is the point of contact at Redvector. Alternatively, you may call that firm’s main number (866/546-1212) and identify yourself as a Smith Currie referral client.

To recognize this added cost to you, we have reduced the registration fee of our courses from that applicable in prior years. Finally, as indicated on the course announcement, we will provide you up-to-date materials including reference materials and manuals that can serve as references for your day-to-day operations.

If you have any questions about registration for these courses or need additional information, please call **Tom Kelleher** at (404)582-8016 or **Sandi Ivey** at (404)582-8092.
