

TECHNOLOGY Roundtable Discussion

BEST PRACTICES, LESSONS LEARNED AND HELPFUL TIPS

The Chapter's Technology Committee invites all members, *techies to novices*, to an open exchange of best practices, lessons learned and helpful tips pertaining to technology and communication issues on the jobsite, in the office and in between.

TUESDAY, MAY 13, 2008
1:30 - 3:00 PM
GEORGIA BRANCH, AGC TRAINING CENTER
1940 THE EXCHANGE; ATLANTA, GA 30339

Opening the day's dialogue, we'll discuss the following:

- Managing Email:** When to delete; On- and off-site storage options; Do legal disclaimers have merit?
- Jobsite Connectivity:** DSL/Broadband vs. PC cards from regional wireless phone companies
- Remote Access:** Pros and cons of hosted database/application servers
- Windows Vista:** Steer clear or make the jump?

This meeting also includes time for participants to share helpful tips and tricks with common Microsoft applications, and a "show and tell" opportunity for useful, unique websites.

Here's what past participants gained from this casual information exchange!

"I always get a useful piece of information to take back to the office."

"Contractors run into technology problems everyday; this is a great place to ask if others have found reasonable solutions."

"Well worth the time away from the office! I typically find financially valuable information in this type of information exchange."

Register with your personal password at www.agcga.org or by faxing this form to AGC.

YES, I would like to participate in Georgia Branch, AGC's Technology Roundtable Discussion!

Please add this topic to the discussion: _____

Name: _____ Company: _____

Title: _____ Email: _____
