

Web Link Service Offered to Members

Enhance your firm's presence in the marketplace

LINK TO YOUR WEBSITE FROM GEORGIA BRANCH, AGC'S WEBSITE

Georgia Branch, AGC is totaling **hundreds of thousands of page hits** and sessions are **reaching 100,000 each month**. Included in this improved resource are links to our members' websites.

As www.agcga.org has improved, there has been a dramatic increase in traffic. We are also experiencing an increase in requests from members who want to have their site listed on ours. Another area of increased demand is that owners, architecture and engineering firms, along with non-member contractors from out-of-state, call staff requesting a membership list to reference for projects. We are unable to give them cart blanc access due to privacy concerns, but we do refer the caller to our Members' Website Links page. There they can reference members' websites, which are divided into categories such as general contractor, specialty contractor, supplier and service provider, in order to learn more about the services of our members.

To add one more tool to your firm's marketing strategy, we encourage you to link your website from the Georgia Branch, AGC's Members' Websites area for an annual fee of \$100.

YES! My firm wishes to take advantage of the following service . . .

LINK MY WEBSITE FROM THE GEORGIA BRANCH, AGC'S WEBSITE
