

AGC Build Georgia Awards 2008

The Build Georgia Awards began in 1989 when the AGC Georgia recognized general contractor members and their construction teams for outstanding performances on some of Georgia's most remarkable projects.

In 1997, the Chapter established an award for specialty contractor members. The contributions specialty contractors give to the industry are vital to the success of the overall project, for this reason we are proud to include them in the tradition of the Build Georgia Award program.

Build Georgia honors achievements of Georgia's construction firms and the dedicated men and women that make up the state's construction industry. Their skill, integrity and responsibility and spirit of innovation and problem solving are making history in Georgia and improve our state's quality of life.

The Build Georgia General Contractor Award competition seeks to honor excellent construction projects throughout the state. The key judging criteria for the 2008 program included:

- Exceptional project safety performance
- Meeting the challenge of a difficult job
- Innovation in construction techniques and materials
- Excellence in project management and scheduling
- Excellence in client service

Each year a panel of industry professional select outstanding construction projects to receive the Build Georgia Award, and the Build Georgia Specialty Award, AGC Georgia's highest levels of distinction

Pictured are representatives of projects awarded first place in the General Contractor Division of the AGC Georgia's 2008 Build Georgia Awards Program.

Pictured are representatives of projects awarded first place and merit awards in the Best Sustainable Building Practices Division of the AGC Georgia's 2008 Build Georgia Awards Program.
