Browning® designed the Citori® CX™ White Over/Under Shotgun with lightweight profile barrels and a 60/40 point of impact, optimized to crossover from hunting to multiple disciplines of clay shooting. The barrels have a flat floating ventilated rib, ventilated side ribs, and ivory front and mid bead sights. Midas® grade extended Invector-Plus® choke tubes minimize shot deformation and maximize pattern uniformity. The steel receiver features a silver nitrate finish with the CX logo. The Grade II American walnut stock has a gloss finish, 18-LPI checkering, and Browning's Inflex Technology® recoil pad. The Inflex recoil pad utilizes directional deflection to pull the comb down and away from the shooter's face, creating greater comfort and allowing for faster follow up shots. The Browning Citori CX White Over/Under Shotgun comes with 3 choke tubes (F,M,IC), and a T-wrench.
