Please support AGC Georgia's annual fundraising campaign for high school construction and welding instructor professional development. **All donations to the AGC Georgia Foundation for this cause are tax-deductible.** Monies raised through this request offset expenses incurred to host Camp T & I, which is a hands-on training program.

Along with helping pay for the camp through donations, AGC Georgia members attend to network with instructors and share their industry expertise. Hands-on best practices training includes, but is not limited to masonry, concrete, metal stud framing, plumbing, welding, and electrical. Member facilitators also provide information about employability/soft skills students need to do their best during interviews and as a member of a jobsite team. This comprehensive training is unique and vital to the growth of Georgia's construction programs.

A HUGE thank you to all members who continue to support Camp T & I! So much of the workforce development magic happens at this grassroots level. This program is a great example of how you can get engaged and make a difference.
