

AGC OF AMERICA'S SUPERVISORY TRAINING PROGRAM

AGC GEORGIA PRESENTS A SESSION ON . . .

Planning and Scheduling

Mondays – January 7, 14, 21, 28, 2019
Each session will be held from 5:00 to 9:00 pm
Oconee Fall Line Technical College Dublin Campus – Porter 611
560 Pinehill Road, Dublin, 31021
Registration: \$250 per person

Oconee Fall Line Technical College is partnering with the Associated General Contractors of America to offer their nationally-recognized Supervisory Training Program (STP). It is a construction-specific training curriculum developed, updated and field-tested by and for contractors. Supervisory skill – or the lack of it – directly affects every company's bottom line. You make your money in the field, and STP can help you improve your organization's bottom line.

STP focuses on the knowledge and skills every supervisor must have to be an effective manager of people, time, equipment and materials.

The **Planning and Scheduling session** will help construction supervisors understand ways in which planning and scheduling saves time and money, while increasing quality in the construction process. Topics include:

- Preparing the project plan
- Communicating the plan
- The critical path
- Computer use in scheduling
- Using the schedule on the jobsite
- Updating the construction schedule
- The schedule as documentation
- Using planning and scheduling

Who should attend? Field superintendents, foremen, assistant project managers, and project managers

Make plans to participate in more STP courses! The following sessions will be offered soon.

- **Contract Documents** – begins February 4 and hosted at MetroPower in Macon (444 Plum Street, Macon)
- **Improving Productivity & Managing Project Costs** – begins March 4 and hosted at OFTC's Dublin Campus
- **Risk Management and Problem Solving** – begins April 15 and hosted at MetroPower in Macon

To see curriculum for each session, visit www.agc.org/stp.
