PROGRAM OVERVIEW:

This workshop is designed for superintendents and foremen of both general and trade contractors—

Learn the right way to **productively lead** and **collaboratively participate** in the Last Planner System.

Learn proven; sound techniques and critical leadership behaviors to implement pull planning effectively and **create steady workflow** on your projects.

Learn how pull planning **eliminates the aggravation of rework and waiting around** to perform your work.

Learn and practice 10 proven techniques developed from over 1000 pull planning sessions—rooted in the latest cognitive science of high-performing teams.

Walk away with a complete set of customized tools and instructions to lead your projects and train your people, from kick-off to close-out:

- PowerPoint, handouts, templates, and exercises for instruction
- Strategies to create trust, cooperation, and buy-in
- Techniques to build high-performing teams
- Big Room Tools
- Play Book Instructions
- Personal Assessments

Learn how to **foster leadership** and **teamwork** for increased profit. Get the right work **done right** the first time.
