

BIM Unit 3

3rd Ed. BIM Project Execution Planning

Monday, May 04, 2020

8:00 am – 5:00 pm

AGC Georgia Training Center; 1940 The Exchange, Atlanta 30339

Building Information Modeling (BIM) is changing the way projects are constructed. Whether you are a prime contractor using BIM across an entire project or a subcontractor impacted by a specific BIM implementation, this practice requires specific mindsets and technological know-how in order to achieve significant improvements in efficiency and cost control.

BIM EDUCATION PROGRAM

In concert with AGC of America, AGC Georgia is pleased to offer the nationally-recognized *BIM Education Program* curriculum to our members. The upcoming BIM 3 course is the third in a four-part series offered over the next several months,

and is designed to prepare construction professionals at all experience levels to successfully implement BIM on a construction project.

After completion of all BIM courses (Unit 4 and exam shown to the right), and achieving a passing score on the credentialing exam, a candidate earns their CM-BIM credentials.

BIM Unit 3 Course Topics

- A full-day course that begins by articulating the roles and responsibilities for BIM use on a project using contractual BIM addendums.
- Participants learn how to define terms that are used to negotiate a BIM contract. Building on this knowledge, the course will explore concepts of liability exposure and standards of care that arise from using BIM.
- The course includes a BIM Execution Plan development workshop that takes students through industry standard templates while providing a detailed outline of all the procedural and substantive activities.

Mark your calendar for the remaining BIM course and exam. All courses and the exam will be hosted by AGC Georgia and held in the Chapter's Training Center.

Unit 4: BIM Process, Adoption, and Integration

June 15, 2020

CM-BIM Credentialing Exam

The Certification of Management–Building Information Modeling (CM-BIM) program is the construction industry's first and only certificate program teaching the practical application of the BIM process for commercial construction firms.

The Associated General Contractors of America (AGC) is a Registered Provider with The American Institute of Architects Continuing Education Systems. Credit earned on completion of this program will be reported to CES Records for AIA members. Certificates of completion for non-AIA members are available on request.

The U.S. Green Building Council (USGBC) developed Leadership in Energy and Environmental Design (LEED®) Green Building Rating Systems for different applications, such as New Construction and Major Renovations, Commercial Interiors, Core and Shell, and Homes. The USGBC Education Provider Program has approved the technical and instructional quality of this course.
