

## Are you complying with prevailing wage and benefit requirements correctly?

The Biden Administration is certainly going to increase scrutiny of employers under all applicable labor and employment laws.

Contractors who do business with the federal government are already subject to an additional layer of laws, regulations and executive orders and will face even greater scrutiny once President Biden takes office.

Now is the time for federal contractors to get into compliance and to make sure they are prepared for this increased scrutiny and enforcement efforts.

Long-time AGC Georgia member and supporter Bert Brannen will present this webinar to help federal contractors learn about their obligations to pay prevailing wages and benefits under the Davis Bacon and Service Contract Acts and related acts and the significant penalties for non-compliance.
