

Lean Exam Prep Course

About the Course

Lean Construction
EDUCATION PROGRAM

Congratulations! You've taken all seven AGC Lean Construction Education Program courses and now it's time to put your knowledge to the test. AGC Georgia is partnering with Ed Beck to offer an intensive prep course.

Preparing for the Lean Exam is for most an intense personal study. The exam can take up to 4-hours and includes 150 "best choice of 4," questions. Several choices may sound applicable, but only the BEST answer will count. To be successful, the applicant will need to be very familiar and comfortable with all of the information contained in the seven class manuals. Only having attended the classes will likely not be enough for most people to pass the exam.

Prior to this course, make yourself thoroughly familiar with concepts and practices discussed in all manuals, including their glossaries. Upon registration for this course, you'll receive 55 "sample" exam questions to be answered in advance of the class.

We'll limit registration to 14 to ensure a collaborative conversation for all participants.
