

# Safety & Technology for 2023

How can technology impact safety performance?

## About the Lunch & Learn

Safety management on construction projects has evolved in parallel with the evolution of software and mobile technology. The traditional workflows of documenting safety meetings, inspections and accident reports continue to move from paper-based forms to real-time, cloud data that enhances accountability and reporting.

New digital tools help provide real time data and analytics for safety performance for understanding training completed, comprehension of materials and location of certificates.

In this session you will see demonstrations of new technology for:

1. Video based safety meetings.
2. Virtual reality-based safety training.
3. Employee certification tracking and access.
4. New layout options from 3D printing devices.

## When

Thursday, June 22, 2023 | 11:30 pm – 1:30 pm  
*includes boxed lunch for in seat registrants*

## Participation Options

AGC Georgia Hybrid Learning Room
