

VitalCog for Construction

(Suicide awareness and prevention)

What is VitalCog for Construction?

VitalCog trains organizations to proactively address the early warning signs of suicide in the workplace. Just as organizations have realized they can help reduce heart disease by encouraging exercise, they can also reduce suicide by promoting mental health and encouraging early identification and intervention. This training will educate and equip businesses with tools to address mental health and suicide concerns within the workplace.

This 2-Hour Training Give Participants:

- The skills and tools to appreciate the critical need for suicide prevention while creating a forum for dialogue.
- Critical thinking about workplace mental health challenges, and by promoting help-seeking and help-giving.
