

# Performance Driven Construction Management

## Overview

To educate participants via real-time examples on the principles and best practices of Performance Driven Construction Management, highlighting how data-driven decision making and modern project management tools and technology can enhance productivity, quality, and accountability across construction projects. The session aims to change the way we manage the construction process by empowering attendees with actionable strategies to improve project outcomes through performance optimization and continuous improvement.

## Key Takeaways

- How investing in technology encourages teams to embrace change management as a proactive collaborative process
- How to identify inefficiencies in construction projects
- How to create a plan based on real-time data and analytics
- Understand the use of data and the importance of data privacy in the world of AI

## When

Wednesday, September 10, 2025

11:30 am – 1:00 pm

*includes boxed lunch for in-seat participants*
