# FOUNDATION

**TO:** Business leaders who support construction education

**FROM:** Christy Kovac, President, Sheridan Construction  
Joe Tuggle, President, Swofford Construction

**RE:** Central Georgia/Southern Crescent Skills Challenge – October 27, 2020

**DATE:** October 2020

---

Thank you for supporting our Central Georgia/Southern Crescent Skills Challenge.

This annual competition for high school construction students gives young people a great opportunity to show off their construction skills and learn more about rewarding careers in construction. Since our region's inaugural event in 2016, we've steadily increased participation. The 2019 event welcomed more than 600 attendees.

Due to COVID-19, this year's Skills Challenge will be different on many levels. For our region's schools that have permission to participate, we are committed to offering a first-class, socially distanced experience. We'll continue to offer Blueprint Reading, Carpentry, Electrical, Plumbing, Masonry, Roofing, and Welding competitions.

To maintain a responsible environment, we have asked schools to not bring the hundreds of student observers that typically attend. We also made the difficult decision to not invite industry firms to host interactive exhibits. Guests such as academic leaders, elected officials, CTAE directors, and media are also not invited. We must focus 100% of our resources on meeting guidelines required of us to maximize the competitor/instructor experience.

While it is unfortunate that we cannot accept your in-person support at this year's event, we still hope you'll consider helping us as we work to host a great event. We are asking for your material donations and/or financial support. Any monetary contributions are 100% tax deductible through the AGC Georgia Foundation, a 501(c)3 organization.

In keeping with our rewarding tradition, any funds raised for this year's Skills Challenge that are not needed for day-of expenses are held in the Central Georgia/Southern Crescent account within the Foundation. At the end of this year, we will divide proceeds among this regional event's schools and deliver checks to the instructors to help them purchase more materials for construction lab projects.

We invite you to continue your support for our regional Skills Challenge and help make a difference in our industry's efforts to build a sustainable talent pipeline. With your support we are elevating construction curriculum in our high school programs.
